Socket Programming Assignment

Joseph Serra

July 11, 2025

1 Overview

Code repository: https://github.com/jserra7d5/cs-372-assignment-1

This assignment demonstrates socket programming in Python using the raw socket API. Three programs were implemented to showcase different aspects of network communication:

- 1. simple_get.py Basic HTTP GET client for small files
- 2. large_file_get.py HTTP GET client with loop for large files
- 3. simple_server.py Simple HTTP server

All programs use the Python socket API as required.

2 Implementation Details

2.1 Simple GET Client (simple_get.py)

This program connects to gaia.cs.umass.edu and retrieves a small HTML file using a single recv() call.

Usage:

```
python3 simple_get.py
```

Screenshot of simple_get.py execution:

```
• joeserra@Joes-MacBook-Air Assignment_1 % /usr/local/bin/python3 "/Users/joeserra/Documents/Classes/CS 372/Assignment_1/simple_get.py"
Request: GET /wireshark-labs/INTRO-wireshark-file1.html HTTP/1.1
HOSt:gaia.cs.umass.sdu
[RECV] - length: 382
HTTP/1.1 200 0K
Date: Fr1, 11 Jul 2025 06:02:39 GMT
Server: Apache/2.4.6 (CentOS) OpenSSL/1.0.2k-fips PHP/7.4.33 mod_perl/2.0.11 Perl/v5.16.3

```

Figure 1: Execution of simple_get.py showing HTTP GET request and response

2.2 Large File GET Client (large_file_get.py)

This program demonstrates handling larger files by implementing a receive loop that continues until the server closes the connection.

Usage:

```
python3 large_file_get.py
```

Screenshot of large_file_get.py execution:

```
• joeserra@Joes-MacBook-Air Assignment_1 % /usr/local/bin/python3 "/Users/joeserra/Documents/Classes/CS 372/Assignment_1/large_file_get.py"
Request: GET /wireshark-labs/HTTP-wireshark-file3.html HTTP/1.1
HOStrogaia.cs.umass.edu

2.3 Simple HTTP Server (simple_server.py)

This program creates a basic HTTP server that listens on localhost and serves a simple HTML response to web browsers.

Usage:

```
python3 simple_server.py
```

Then open browser to: http://127.0.0.1:8080 Screenshot of simple_server.py execution:

```
joeserra@Joes-MacBook-Air Assignment_1 % /usr/local/bin/python3 "/Users/joeserra/Documents/Classes/CS 372/Assignment_1/simple_server.py"
